广东江门市美耐德科技有限公司
Jiangmen Meinaide Technology Co., Ltd.

THE BRAND BUILDING MARKET, INTEGRITY CASTING BRILLIANT!

Our products not only sold in domestic market, and also exported to Southeast Asia, the Middle East, America, Eastern Europe and other parts of the world.

THE COMPANY

ABOUT US

PREMIUM QUALITY, EXCELLENT SERVICE,
KEEP IMPROVING, HIGHEST INTEGRITY.

--- EST. 1994

Guangdong Jiangmen Meinaide Technology Co., Ltd. located in the central region of the Pear-River Delta, just 60 km from Guangzhou and 40 km from Foshan. The nearby West River and the extensive road networks make it one-hour traffic to nearby cities. Water transportation to Hong Kong is 2.5 hours. Moreover, the company is only 10 km from the port of Heshan, the 3000 tons international dock which is connected to the whole world. Jiangmen Meinaide Technology Co., Ltd. is a personal-owned high technology company which is established in 1994. Our company has a strong innovative strength and advanced equipment. Owing global advanced PVC-U and

PS-U production lines, we focus on producing PVC foam boards, PS foam boards, PVC base construction template, Automotive interior panel. Besides, we also specialized in producing PS foam boards, PS core, PVC foam boards, Door panels and Wood-plastic composites other 30 kinds of products. The annual production is about 9000 tons for PVC-U products, 2000 tons for PS-U products and 2.8 million sheets of PS composite decoration boards. Meinaide also has independent import and export rights, our Products sold in domestic market and exported to Southeast Asia, Middle East, America, Eastern Europe and other parts of the world.

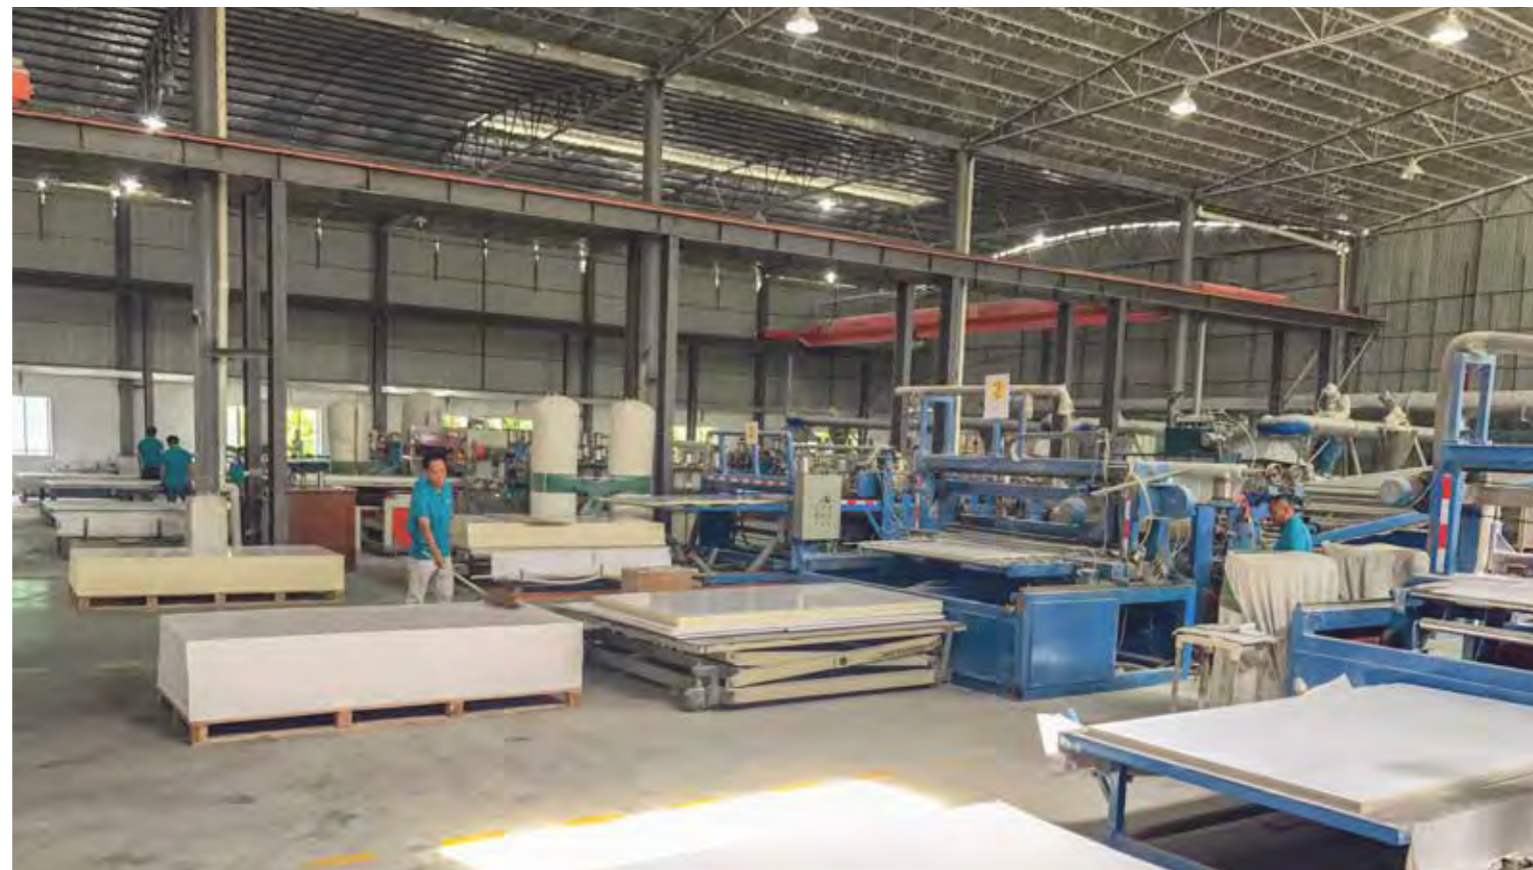

THE PRODUCTION

OUR PRINCIPLE

Since the establishment, we always put advanced technology, scientific management, professional spirit, creative ideas, and high quality in the important place, "Premium Quality, Excellent Service, Keep Improving, Highest Integrity." as the main principle.

we have achieved a lot of success including a Patent of Plastic Wooden Board. However, we never stop providing the best services and high quality products to the customers. Meantime, we are always researching and developing new products to cater the changing needs on the market. Based on these principles, Meinaide enjoys a good reputation in the industry.

COMPANY DEVELOPMENT & HONOR

WHERE WE STAND

Years have passed, and the world has moved. After 25 years of development, with the efforts and support of all employees, the company's business is booming. Our glorious past cannot be separated from everyone, and they will work with us to create a brilliant future. Without the sowing of spring, there is no harvest in the fall. Without support, there will be no customer and the trust of consumers in the company, there will be no achievements of the company today.

Meinaide has met and passed the requirements of **ISO9001:2008** and **ISO14001:2004** and national **3C** (Certificate for China Compulsory Product) certification, and has reached international tandards for the flame retardant and fire protection certification, which ensure the quality of the products satisfies international standards.

2009

"Advanced Company by China Plastics Processing Association"

2011

"AAA Enterprise Credit Grade in plastic industry"
"Big Taxpayer" in Gulao Town"

2013

"AAA Enterprise Credit Grade in plastic industry" and "Big Taxpayer" in Gulao Town" for consecutive three years
Winning the "Jiangmen Science and Technology Award"

2015

"AAA Enterprise Credit Grade in plastic industry" and "Big Taxpayer" in Gulao Town" for consecutive five years

2017

"Big Taxpayer" in Gulao Town" for consecutive seven years
"Guangdong Province Contract-abiding and Credit Grade Enterprise" for consecutive eight years

2010

"China Top Five Plastic Board Enterprise"
"Guangdong Province Contract-abiding and Credit Grade Enterprise"

2012

"Guangdong Province Contract-abiding and Credit Grade Enterprise" for consecutive three years
"Guangdong Technology Enterprises"

2014

"Guangdong Province Contract-abiding and Credit Grade Enterprise" for consecutive five years
"Light industry brand cultivation management system Advanced Enterprise"

2016

"China Light Industrial Plastics industry top Ten Enterprises (PVC Hard Low-foaming Board)"
"China "Twelfth Five" plastic processing industry outstanding Enterprises"

2018

"Certificate of High and New Technology Enterprise of Guangdong Province"
"Certificate of Guangdong Province High-tech Products"
The title of "Guangdong Famous Brand"
The "Bronze award of 2018 Heshan Industrial Design and Technology Innovation Contest"
"Identified as Jiangmen automotive interior materials engineering technology research center."

PS FOAM BOARD

LIGHT WEIGHT HIGH STRENGTH PRINTABLE

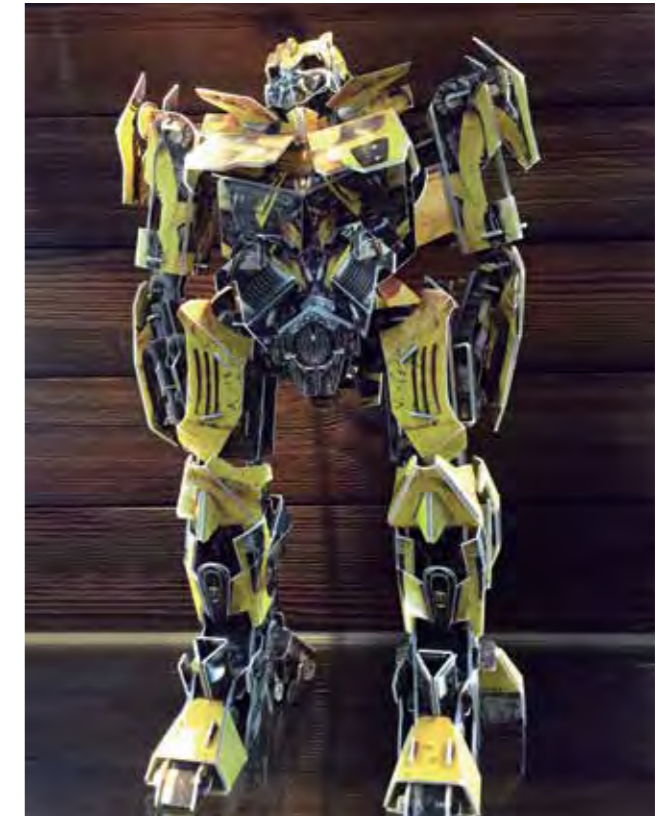

THICKNESS: 2 ~ 10mm

GRADE: A, AA, AAA, Rigid

COLOUR: White, Black, Yellow, Red, Green, Blue

SPECIFICATION: 900 x 2440mm, 1220 x 2440mm, 1560 x 3050mm, Customized size is available

PS Foam Board also call KT foam board, this series of product adopts international leading equipment and domestic leading PS foaming technology. PS foam board is composited with two lays of PS boards with surfaces laminated. After special trement, it has virtues like the surface is smooth, high strength, light weight, non-deformation, economical, heat retaining, cold-proof, good cushion effect, sound insulation. Fouthermore, it has hard texture, density, with a solvent/ ink and can be directly printed in the Flat Printer, free mount, convenient and affordable.

PS PAPER FOAM BOARD

SMOOTH SURFACE NON-DEFORMATIONAL PRINTABLE

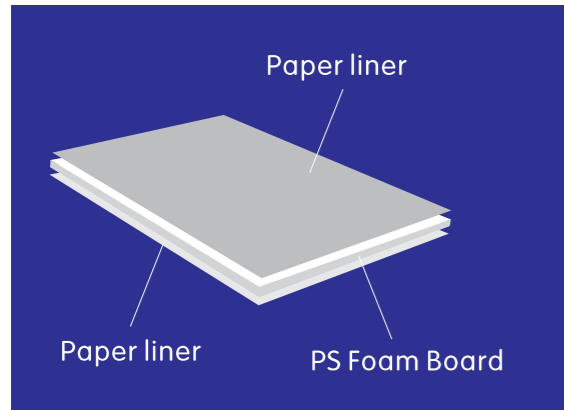

THICKNESS: 3 ~ 20mm

GRADE: A, AA, AAA, Rigid

COLOUR: White, Black, Yellow, Red, Green, Blue

SPECIFICATION: 700 x 1000mm, 900 x 2440mm, 1220 x 2440mm, Customized size is available

PS Paper Foam Board adopts international leading composition bonding technology. All products go through multi-channel processes, and rigorous testing. The products have good characters like smooth surface, non-deformational, high grade, various serious, non-toxic and environmentally friendly and wide usages.

PS CORE

LIGHT WEIGHT WATER-PROOF NON-TOXIC

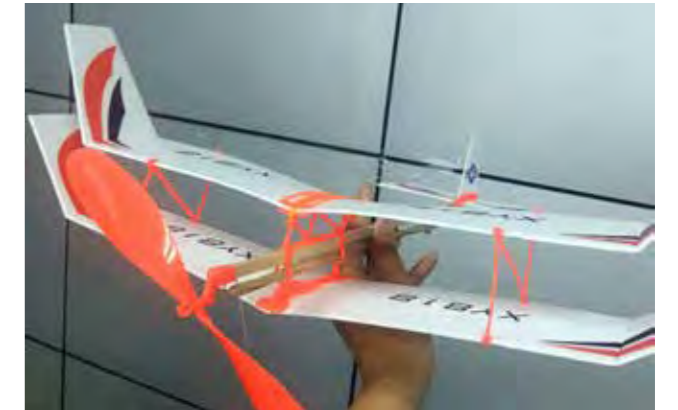

THICKNESS: 1.5 ~ 15mm

GRADE: A, AA, AAA, Rigid

COLOUR: White, Customized colour is available with minimum order requirements

SPECIFICATION: 915 x 610mm, 915 x 1830mm, 1220 x 2440mm, 1560 x 3050mm, Customized size is available

PS Core series adopts international leading equipment and domestic leading PS foaming technology. The PS board has features like light texture, smooth surface, non-deformational, various series, non-toxic and environmentally friendly and wide usages.

PVC SIGN BOARD

LIGHT WEIGHT WATER-PROOF PRINTABLE

THICKNESS:	1 ~ 25mm
WIDTH:	915mm, 1220mm, 1560mm
LENGTH:	No Limited
DENSITY:	0.35 ~ 0.8g/cm ³
COLOUR	White, Black, Gray, Yellow, Red, Green, Blue

PVC Sign Board also call PVC free foam board, with vareious colour option, matt surface good for ink absorbtion.

PVC foam board uses imported pigments and ingredients and has colour-unchanging, non-aging features and light texture, great toughness.which is use for sign industry, model making, such as engraving, exhibition booths, advertising signs and displays, prototypes.

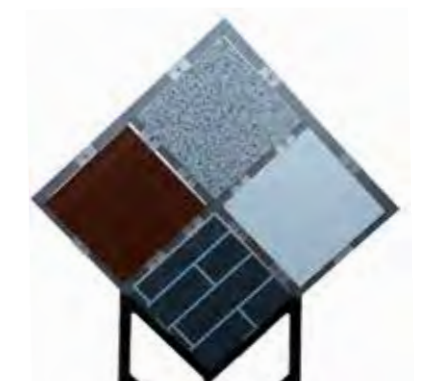

PVC EXTRA RIGID BOARD

HIGH GLOSSY SUPER HARD SURFACE

THICKNESS:	3 ~ 25mm
WIDTH:	1220mm
LENGTH:	No Limited
COLOUR:	White, Black, Gray, Yellow, Red, Green, Blue

PVC Extra Rigid Board also call PVC co-extruded foam board, is a new green environmental protection material and a good substitute for wood, aluminium, plastic composites ones. It use for a varity of applications including furnitures like kitchen and bathroom cabinets, interior decoration, exhibition booths, advertising signs and displays and prototypes.

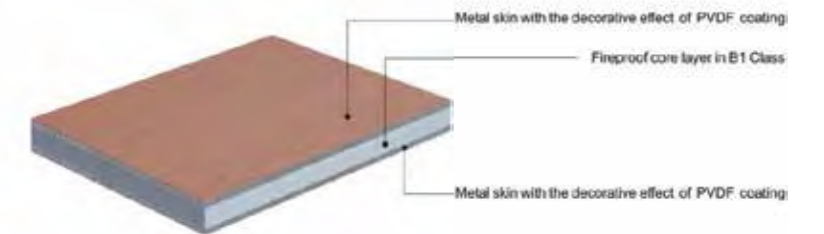

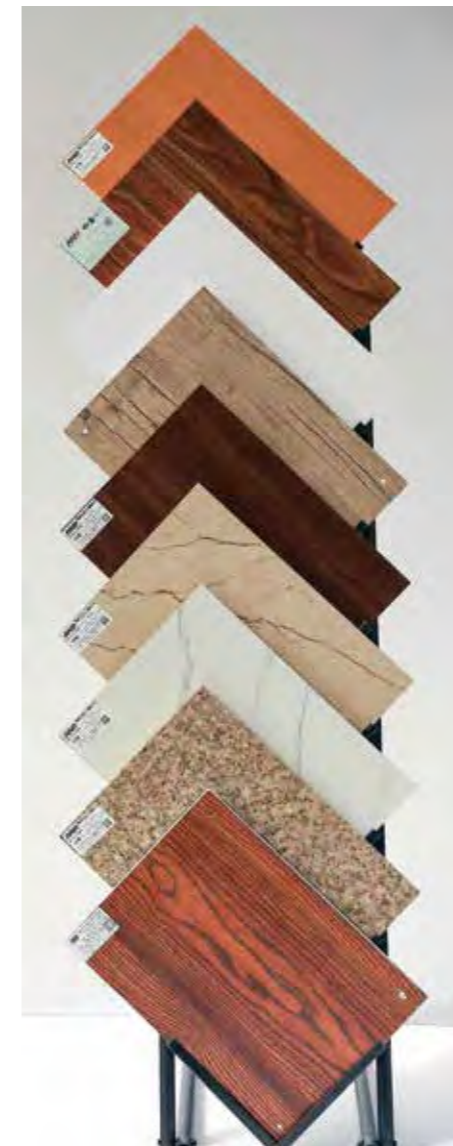

PVC BUILDING BOARD

WATER-PROOF FIRE RESISTANCE LIGHT WEIGHT

- THICKNESS:** 5 ~ 25mm
- WIDTH:** 915mm, 1220mm, 1560mm
- LENGTH:** No Limited
- COLOUR:** White, Black, Gray, Wood, Yellow, Red, Green, Blue

PVC Building Board also call PVC foam board, PVC celuka foam board, Aluminum Energy-saving Panels, it has good sound-proofing, heat insulation, heat absorbing and fireproof characters and also moisture proof, mould proof, water repellent features and good cushion effect. By authoritative testing, the material meets the national standard of B1 fire proof class, with excellent warm preservation and heat resistance. This product use for a variety of applications inclould furniture like kitch and bathroom cabinets, interior decoration. It is a great material ro replace timber, plywood, MDF, particle board, aluminum material and artificial panel. It can be used in thermal forming, thermal flexure, and folding processing and has fire resistance, non-conduct characters.

PVC FORMWORK PANEL

HIGH IMPACT STRENGTH WATER-PROOF RECYCLE

THICKNESS: 12 ~ 20mm

STANDARD SIZE: 915 x 1830mm, 1220 x 2440mm, Customized size is available

COLOUR: White, Wood

PVC Formwork Panel is made by PVC resin at a certain ratio, added with special additives and extruded at high temperature, it has wood characters such as great strength, stable performance, and can be easily cut, planed, nailed, glued or processed in other ways. With a special application, which can be applied to the field of plywood processing. So far, it is the best environmental protection material to replace plywood formwork.

PVC EMBOSSING BOARD

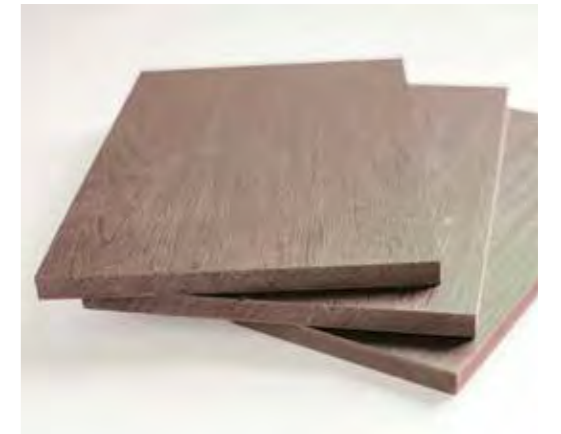

HIGH STRENGTH UV STABLE GOOD HARDNESS

THICKNESS: 3 ~ 25mm

STANDARD SIZE: 1220 x 2440mm, Customized size is available

COLOUR: White, Black, Gray, Wood, Yellow, Red, Green, Blue

PVC Embossing Board including different kinds embossing, customer can provide samples for us to customize the embossing roller or can choose design from us. It uses imported pigments and ingredients and has colour-unchanging, non-aging features and light texture, great toughness, has good planeness without impurity, crystallization point and flow line. This product is mainly use in door, cabinet and decoration filed.

WPC FOAM BOARD

HIGH STRENGTH WATER-PROOF RECYCLE

THICKNESS: 3 ~ 25mm

WIDTH: 1220mm

LENGTH: No Limited

COLOUR: Wood, White, layer colour options available at Page19

WPC Foam Board also call Wood- Plastic Composites board, WPC foam panel. It is water- proof, lightweight, expanded rigid plastic board material, also has wood characters such as great strength, stable performance, and can be easily cut, planed, nailed, glued or processed in other ways. It is a new green environmental protection material and a good substitute for wood, aluminium, plastic composites ones. The WPC is mainly used for building materials, furniture, logistics packaging, display and other industries. It is the ideal materials for furniture industry and indoor decoration and building industry, it's widely used in construction building field.

PVC CNC ENGRAVED

SMOOTH SURFACE **NON-DEFORMATIONAL**

THICKNESS: 3 ~ 25mm

SPECIFICATION: ≥1220 x 2440mm

SHAPE: Round, Ellipse, Doughnut, Groove, any shape can be work out by CNC machine

CNC processing center has strong processing capacity. With advance CNC processing machines and special tools, clean and spacious space. The main material can be CNC machined are PVC foam, PVC rigid board, WPC board, PVC sheet.

PVC SHEET

SMOOTH SURFACE HIGH STRENGTH PRINTABLE

VARIETY:	Polish Sheet	Matt Sheet
THICKNESS:	0.25 ~ 4mm	0.16 ~ 1.8mm
SPECIFICATION:	915 x 1830mm, 1220 x 2440mm	915 x 1220mm, 915 x 1830mm, 1220 x 2440mm
COLOUR:	Clear, White, Black, Yellow, Red, Gray, Blue, Customized colour is available	

PVC Sheet series adopts international leading equipment and domestic leading high grade extrusion sheet of PVC, no wave, transparency. This product are widely used within the field of electronics, namecard, helmet, crafts, musical instrument, water disposal, stationery, and various printing, folded box, etc.

PP HOLLOW SHEET

LIGHT WEIGHT WATER-PROOF PRINTABLE

THICKNESS:	2 ~ 10mm
WIDTH:	500 ~ 2000mm
LENGTH:	No Limited
COLOUR:	White, Black, Yellow, Red, Green, Blue

PP Hollow Sheet also call PP corrugated sheet, is made of Polypropylene (PP) copolymer, homopolymer resin and some fillers. This product is absolutely harmless and odourless, and moisture resistance and anticorrosion. It is special and great properties, such as strong, lightweight, various colours make it good in packaging, advertising, construction and agriculture.
